PIL commemorates International Day for Women in

Maritime around the world

27 May 2024

 PIL recently made history once again, with Kota Cempaka being the largest container vessel to call at the Onne Multipurpose Terminal (OMT) in Nigeria!

 The 6,600-TEU Kota Cempaka called at OMT on 27 April as part of PIL's weekly South West Africa Container Service (SWS). This was also the biggest vessel that PIL has ever deployed to OMT!

 Being the first terminal of call in Onne's Oil and Gas Free Zone, OMT is a gateway to Africa's largest oil production region and Nigeria's major hinterland markets. OMT handles oil and gas, as well as containerised and other cargo types.

 The deployment of the larger Kota Cempaka on our SWS service is testament to our "People-Centric" commitment in facilitating vital trade connections into Africa and connecting the African hinterland to the world. By "Driving Connectivity" to the region, we can help to support further development and growth of Africa!
