## **PIL celebrates the contributions of its many women**

PIL is pleased to join in the celebration today, 18 May 2022, to mark the inaugural International Day for Women in Maritime.

At PIL, we are committed to supporting our women to pursue an exciting and meaningful career in maritime. Our competent ladies fulfil a wide range of responsibilities, from being the Chief Commercial Officer, heads of corporate functions such as HR, Legal, Risk Management, leaders of teams at Fleet, Line Management, Marine Operations, Logistics, to our subsidiaries at PIL Logistics, Mariana Express Lines, as well as our overseas offices and agencies.

Looking ahead, our women workforce will continue to contribute significantly as PIL aims to drive connectivity and grow to become a sustainable shipping line. We pledge to continue to train, recognise and support a “barrier-free working environment” for women to empower them to gain visibility and success in PIL and in the maritime sector.

As a salute to all the women in PIL, we have collated the images of our “lady warriors” who work in our shore-based offices in Singapore, Asia, China, Africa, Middle East, Latin America and others.

Please look out for our post on our lady seafarers!
