## Committed to serving South Africa

As one of the first shipping lines to provide shipping services from China to Africa, PIL is committed to serving South Africa as well as other parts of Africa.

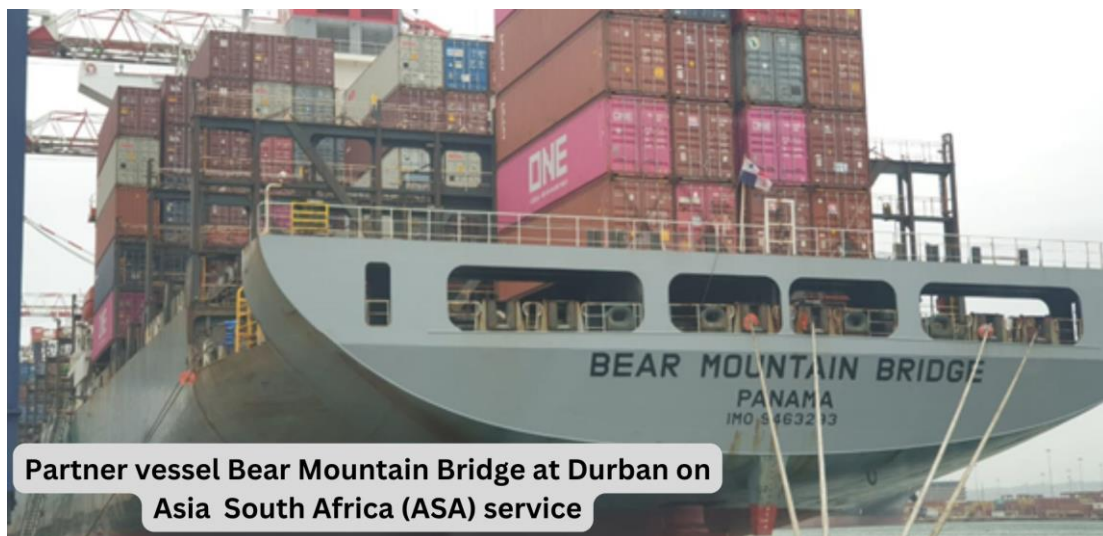

In South Africa, PIL is working with partners COSCO Shipping Lines, Ocean Network Express (ONE), Evergreen Marine Corp (EMC), Gold Star Line (GSL) and OOCL, to provide two weekly services from Asia to South Africa.

Asia-South Africa Service, or ASA, serves key ports in China, Singapore, Malaysia and South Africa. In South Africa, the ports of call are Durban and Cape Town.

The other weekly service is Far East Africa Express, or FAX. FAX is an express service connecting three ports in China to Durban in South Africa through Singapore.

Both ASA and FAX services are operating well, and PIL will continue to meet the needs of its customers in Asia and Africa for efficient services and in line with its aim to drive connectivity.
