## **Thanking workers for keeping Port Sudan open amidst civil unrest**

PIL would like to thank the port workers at Port Sudan for their steadfast support of vessel operations amidst the continuing fighting and unrest in the country. Owing to their unrelenting efforts, PIL's vessels are able to continue to call at Port Sudan to deliver the goods and cargo needed by the country. As a gesture of goodwill and encouragement to the workers, PIL initiated a food distribution drive for the port workers, and on 8 May 2023, about 400 kg of mutton meat were given out by PIL's agency in Sudan to all port workers and their families, who appreciated the timely distribution. Food and other essential items are much needed by the workers and their families during such times of difficulties, and PIL will continue to render its assistance as best as it can.

PIL's thoughts are with the people and its colleagues at Sudan during this challenging time.
