## **PIL seafarers get together in Xiamen, China**

For the first time since the pandemic started in early 2020, PIL organised a physical get-together with its seafarers. About 80 PIL Chinese seafarers, who were on leave ashore, gathered together physically and attended the PIL Seafarers Seminar in Xiamen, China from 23 to 26 May 2023.

The aim of such seminars, which PIL's Fleet Division organises periodically, is to engage with PIL's seafarers to build connections and bond between shore and sea employees.

About 20 seafarers also brought along their families who enjoyed a fun one-day of excursion to Gulangyu Island, while the seafarers attended four days of presentations, discussions and training.

At the seminar, apart from the sharing by PIL's Fleet Division management and colleagues, external expert speakers and trainers were invited to share on relevant topics.

The seafarers who attended the seminar appreciated the opportunity to attend the event and interact in-person with the shore-based management.
