## **Kota Nipah calls at new Nacala Terminal in Mozambique**

PIL is proud to be one of the first shipping lines to call at the new Nacala Terminal in Mozambique! Through our Mozambique Feeder Service (MZS), Kota Nipah made its maiden call at this new terminal on 10 July.

Equipped with new port equipment and operating system, Nacala Terminal will be able to turnaround vessels much faster when fully operational in the coming weeks. Customers can look forward to better schedule reliability for the fortnightly MZS service and shorter transit time for Madagascar and Mozambique cargo!

This improvement to the MZS service is testament to PIL's continued commitment to the Eastern and Southern African markets, as well as to the Indian Ocean islands. Augmented by the launch of this new terminal, we will continue to strengthen our service offerings to these regions!
