## **PIL signs MoU with SGTraDex on digital logistics innovation**

PIL has signed a MoU with [SGTraDex](#), to extend the MOU on the Digital

Collaboration for Logistics Innovation which SGTraDex signed with its partners

earlier in July 2023.

SGTraDex aims to create a data-driven logistics ecosystem in the original MoU, by

driving the adoption of digital solutions and data connectivity with land logistics

players and industry solution providers. Building upon this initiative, SGTraDex has

extended its efforts by forging additional partnerships with shipping lines such as

PIL.

Mr. [Leslie Yee Wai Mun](#), General Manager Information Systems, PIL, signed the

MoU on behalf of PIL.

This collaboration aligns with PIL's mission of 'Driving Connectivity' to create

value for our customers. We look forward to working with SGTraDex in identifying

opportunities on digitalisation and data sharing!
