As a member of the World Shipping Council (WSC), PIL is fully supportive of the Green Balance Mechanism

19 February 2023

🌿📢 As a member of the [World Shipping Council](#) (WSC), PIL is fully supportive of the Green Balance Mechanism that WSC is proposing, which aims to bridge cost gap for green fuels and ultimately accelerate the decarbonisation of the shipping industry. 🤝👍

🌿📢 To support WSC's environmental goals, PIL is committed to achieve net zero by 2050. Putting on our Future-Focused lens, PIL has taken action to drive a sustainable future, and we also urge all partners and stakeholders to do the same. Collectively, we can make the world a better place for our future generations by minimising our environmental footprint! 🌍🌐
