## Another successful participation at BreakBulk Middle East 2024

🏢🌐 It was another successful participation for PIL at the recent Breakbulk Middle East 2024! Organised by [Breakbulk Events & Media](#), this is the leading business event for the project cargo and breakbulk industries in the Middle East.

👏👏 We were excited to receive over 500 visitors from across the world at our exhibition booth, where our team showcased how PIL is Pushing Boundaries to offer even better and more People-Centric project cargo and breakbulk solutions.

💡👥🗣️ Through this event, the team gained valuable insights about the breakbulk and project cargo market, and also had the opportunity to engage with many leaders and experts in this industry. By "Driving Connectivity" around the world with our comprehensive network and customisable solutions, we look forward to supporting our customers' project cargo and breakbulk needs!
