## Driving Connectivity in Asia with project cargo solution

29 Feb 2024

🚢 Last month at the port of Shanghai in China, our vessel Kota Jaya received on board a catamaran, a type of luxury yacht, that was bound for Kota Kinabalu, Malaysia!

⚠️🧐 In order to ensure that the catamaran is seaworthy and ready for transport on Kota Jaya, thorough inspections were conducted, before securing the watercraft onto a 40-feet flat rack using high-strength, weather-resistant straps and dunnage material. Upon arrival at Kota Kinabalu, our teams coordinated with various partners in making special arrangements to carefully unload the catamaran from our vessel.

🤝📄 In addition to shipping the watercraft, our teams in China and Malaysia also liaised closely with local authorities and meticulously prepared the necessary documentation, so as to facilitate a smooth delivery process in a one-stop solution for our customer!

🌐🗺️👤 Once again, this successful shipment is testament to how PIL is "People-Centric" in going the extra mile to meet the various needs of our customers! Reaffirming our commitment of "Driving Connectivity", we have the operational capabilities to transport more than just containers!
