With MatchBox Exchange - Container Logistics' platform

5 Mar 2024

🔄🚚 With MatchBox Exchange - Container Logistics' platform, customers can triangulate import containers for export and cut unnecessary trips to transport empty containers to and from depots. This helps our customers to improve their turnaround times and reduce their carbon footprint!

🤝🌐🚢 By expanding our partnership with MatchBox Exchange, more PIL customers in the region can now make better and greener logistics choices, while we at PIL can also strive towards achieving net zero by 2050!
