Reaching out to students in Singapore

15 Mar 2024

 Earlier this month, PIL organised a career talk at our head office in Singapore to engage about 30 students who may be potential candidates for our scholarship and Management Associate programmes. These young talents are university undergraduates, as well as graduates from junior colleges and polytechnics in Singapore.

 At this career talk, the students had the valuable opportunity to interact with leaders from PIL, including our CEO Lars Kastrup, CFO William Ng, and Chief HR Officer Simon Cheong. They learnt more about how PIL fulfils our mission of "Driving Connectivity", how we leverage digitalisation in our business, as well as how we embrace sustainability across our operations. 

 The students also got a chance to hear from a PIL scholar and current intern Aario Chia, as he spoke about his journey joining the PIL family. This was followed by a panel discussion with PIL leaders and colleagues on topics such as the PIL culture, transitioning into the corporate life, opportunities for PIL in the near future, as well as digitalisation and sustainability in the maritime industry.

 Beyond "Driving Connectivity" for our customers, PIL is also "Driving Connectivity" for the future generation to join our exciting industry! As part of our "People-Centric" commitment, we will be holding another career talk in Singapore in the second half of this year, so do keep a lookout for it through your school's career offices!
