## Pushing Boundaries with Operations Efficiency Seminar

26 Mar 2024

 Last week, the PIL Operations & Procurement Division organised the inaugural Operations Efficiency Seminar at our Head Office in Singapore, where our team was "Pushing Boundaries" and challenging the status quo with the aim of providing better solutions for our customers!

 Gathering about 20 operations colleagues from all around the world, this seminar aims to fulfil five important objectives:

- ✓ Rally Around a Shared Vision
- ✓ Exchange of Expertise
- ✓ Strategies for Efficiencies
- ✓ Preparation for Market Fluctuations
- ✓ Develop Career Progression Plans

 PIL CEO Lars Kastrup and Executive Chairman Mr S.S. Teo were present to kick off the seminar. Over the next three days, a series of workshops on efficiency and interactive sessions were held by various Divisions for a collaborative approach, where our colleagues challenged themselves to think out of the box and seek innovative ways in enhancing efficiencies. This seminar is also one of our "People-Centric" initiatives that demonstrates our commitment towards the growth and development of our colleagues within the organization.

 From all the brilliant new ideas that the team came up with, we are heartened that the Operations Efficiency Seminar was a successful and fruitful one! Together, we are constantly "Pushing Boundaries" and driving operational excellence, so that we can provide better solutions for our customers!
