Lights off for Earth Hour

27 Mar 2024

💡🌐 PIL is proud to have supported Earth Hour this year on Friday, 22 March 2024! This is a worldwide movement where individuals from around the globe switch off their lights for one hour, contributing to the collective effort of conserving energy and reducing carbon footprint.

☀️👉☀️ The teams at Head Office in Singapore, as well as in China, Malaysia and Indonesia, switched off non-essential lights in our offices for one hour during our lunch break. Our colleagues in China even extended this green initiative further to switch off their non-essential lights during lunch hour every day for the whole of March!

🦋🌱 Switching off non-essential lights for 60 minutes may be short, but it demonstrates how PIL has put on our Future-Focused lens to embark on sustainability and decarbonisation efforts which go beyond these 60 minutes! Together, let's take action to minimise our environmental footprint and drive a sustainable future!
