“Driving Connectivity” for underprivileged children in Sri Lanka

23 Apr 2024

💖👤👶 Putting on their Future-Focused lens to make the world a better place for future generations, our colleagues from our Sri Lankan agency, Eastern Maritime (Colombo) Limited (EML Colombo), embarked on a purposeful initiative last month to enhance the learning environments for three schools in the country’s rural areas.

⚽🎨🥁🎵🎒 For this initiative, the EML Colombo team donated sports gear and equipment, art supplies, drum sets, a sound system, as well as first aid kits to these schools in Sri Lanka’s Puttalam district. It is hoped that the donation can enhance the students’ non-academic experiences in sports, art, and music.

🏠🔧👷 The EML Colombo team also sponsored improvement works to the Rajavigama Junior School, one of the beneficiary schools for this initiative. The works involved rebuilding the toilet for the teachers’ quarters, carpeting the floors of the school’s office, and repainting the walls of the school compound.

🌐👤 At PIL, we strive to give back to communities where we operate in. Beyond “Driving Connectivity” for our customers, we are also “Driving Connectivity” for the future generation — connecting and uplifting the underprivileged kids towards societal progress!
